Corporate Information	61 & 62

Dear Investor/Analyst,

In conjunction with the release of Second Quarter earnings, we have prepared this financial statistical supplement to assist investors in understanding Genworth's financial results.

This supplement contains both historical and pro forma earnings and other financial information. Pro forma financial information included in this supplement reflects the effect of the company's corporate reorganization in conjunction with its recent initial public offering (IPO), completed May 28, 2004. As further detailed below, pro forma financial information is presented to enable a more meaningful comparison of Genworth's period-to-period results.

Additional detail on the basis of presentation of historical and pro forma financial information is provided below.

If you have additional questions, please feel free to contact me at Genworth Financial at 804-662-2693.

Regards,

Jean Peters Senior Vice President Investor Relations and Corporate Communications

Basis of Historical and Pro Forma Financial Information

As part of a corporate reorganization effected in connection with the company's IPO, the company acquired substantially all of the assets and liabilities of GE Financial Assurance Holdings, Inc. (GEFAHI), an indirect subsidiary of GE. The company also acquired certain other insurance businesses that were owned by other GE subsidiaries but managed by members of the company's management team. In consideration for the assets that the company acquired and the liabilities that the company assumed, the company issued various equity and debt securities to GEFAHI.

The company has prepared its historical financial information as if the company had been in existence throughout all relevant periods. The historical financial information through the date of the corporate reorganization (May 24, 2004) includes all businesses that were owned by GEFAHI, including those that were not transferred to the company, as well as the other insurance businesses that the company acquired from other GE subsidiaries in connection with the corporate reorganization. The financial information after the date of the corporate reorganization excludes businesses that the company did not acquire from GEFAHI. As a result, the company's historical financial information for periods prior to the corporate reorganization is not comparable to historical financial information for periods ending after that date.

Prior to the completion of the IPO, the company entered into several significant reinsurance transactions with Union Fidelity Life Insurance Company (UFLIC), an indirect subsidiary of GE. As part of these transactions, the company ceded to UFLIC, effective as of January 1, 2004, policy obligations under all of its in-force structured settlement contracts, which had reserves of \$12.0 billion, and substantially all of its in-force variable annuity contracts, which had general account reserves of \$2.8 billion and separate account reserves of \$7.9 billion, each as of December 31, 2003. These contracts represent substantially all of the company's contracts that were in force as of December 31, 2003 for these products. In addition, effective as of January 1, 2004, the company ceded to UFLIC policy obligations under a block of long-term care insurance policies, which had reserves of \$1.5 billion as of December 31, 2003. As part of the reinsurance transactions, UFLIC ceded to the company in-force blocks of Medicare supplement insurance, which had reserves of \$19 million.

The unaudited pro forma financial information contained in this financial supplement reflects the company's historical combined financial information as adjusted to give effect to the transactions described below and certain other transactions as if each had occurred as of January 1, 2003:

- · the removal of certain businesses of GEFAHI that were not transferred to the company in connection with the corporate reorganization;
- the reinsurance transactions with UFLIC;
- the issuance of equity and debt securities to GEFAHI in exchange for the assets that the company acquired and the liabilities that the company assumed in connection with the corporate reorganization; and
- the issuance and sale of \$1.9 billion of senior notes and \$500 million of commercial paper and the application of the proceeds therefrom.

The unaudited pro forma financial information is based upon available information and assumptions that the company believes are reasonable. The unaudited pro forma financial information is for illustrative and informational purposes only and is not intended to represent or be indicative of what the company's financial condition or results of operations would have been had the transactions described above occurred on the dates indicated, nor what they may be in the future.

Use of Non-GAAP Measures

This financial supplement includes the non-GAAP financial measure entitled "net operating earnings." The company defines net operating earnings as pro forma net earnings from continuing operations, excluding pro forma after-tax net realized investment gains and losses (which can fluctuate significantly from period to period), changes in accounting principles and non-recurring, infrequent or unusual items. There were no non-recurring, infrequent or unusual items excluded from pro forma net operating earnings for the periods presented in this financial supplement other than a \$22 million tax charge during the three months ended June 30, 2004 arising from the company's separation from GE. Management believes that analysis of net operating earnings enhances understanding and comparability of performance by highlighting underlying business activity and profitability drivers. However, net operating earnings should not be viewed as a substitute for GAAP net earnings. In addition, the company's definition of net operating earnings may differ from the definitions used by other companies.

The table on page 6 of this financial supplement provides a reconciliation of pro forma net operating earnings to historical and pro forma net earnings. The term "net operating loss" as used in this financial supplement is also a non-GAAP financial measure and has a meaning corollary to "net operating earnings."

All net realized investment gains (losses) are reflected in the Corporate and Other Segment and are not reflected in the results of any of the company's other segments. As a result, the segment results contained in this financial supplement are presented on a net operating earnings basis, which is the same as net earnings under GAAP for all segments, except for the Corporate and Other Segment. For a reconciliation of pro forma net operating earnings for the Corporate and Other Segment to pro forma net earnings presented in accordance with GAAP, see the tables on pages 15 and 16 in this financial supplement.

Definition of Sales

The term "sales" as used in this financial supplement means (1) annualized first-year premiums for term life insurance, long-term care insurance, group life and health insurance and life-contingent annuities; (2) deposits for universal life insurance, spread-based non-life contingent products and fee-based products; (3) gross written premiums for European payment protection insurance; and (4) new insurance written for mortgage insurance, which in each case reflects the amount of business the company generated during each period presented. Sales do not include renewal premiums or deposits on policies or contracts written during prior periods.

The company considers annualized first-year premiums, deposits and new insurance written to be a measure of the company's operating performance because they represent a measure of new sales of insurance policies or contracts during a specified period, rather than a measure of the company's revenues or profitability during that period. This operating measure enables the company to compare its operating performance across periods without regard to revenues or profitability related to policies or contracts sold in prior periods or from investments or other sources.

Note: For a discussion of notes (a), (b), and (c) to these tables see Notes To Pro Forma Financial Information on page 7.

Notes to Pro Forma Financial Information

- (a) Reflects adjustments to exclude amounts included in the company's historical combined earnings relating to (1) certain businesses (formerly reported in the company's Affinity Segment) and certain investment partnerships, which in each case were not transferred to the company, and (2) net realized investment (gains) losses and related tax benefit arising from sales of Affinity segment assets that were reflected in the company's Corporate and Other Segment.
- (b) Reflects adjustments to record the effects of the reinsurance transactions the company entered into with, and the related contribution the company made to, UFLIC, an indirect subsidiary of GE. As part of these transactions, the company ceded to UFLIC all of its in-force structured settlement contracts, substantially all of its in-force variable annuity contracts, and a block of long-term care insurance policies that it reinsured from Travelers in 2000, and it assumed from UFLIC a block of Medicare supplement insurance, all effective as of January 1, 2004. The unaudited pro forma earnings information gives effect to the reinsurance transactions as if each occurred as of January 1, 2003 and excludes the effects of all ceded reinsured contracts that were issued before January 1, 2003. The company has continued to sell variable annuities and structured settlements after completion of the reinsurance transactions and is retaining that business for its own account, subject to third party insurance in the ordinary course of business.

As a result, the company's unaudited pro forma combined statement of earnings reflects premiums and fees from these products issued after January 1, 2003, even though variable annuities and structured settlements issued during 2003 are included in the blocks of policies reinsured to UFLIC. The company's pro forma combined statements of earnings exclude the impact of the entire block of long-term care insurance policies that the company ceded to UFLIC as the company did not issue any new policies for this block in 2003, and the company will not issue any in the future.

Under the reinsurance transactions, the company receives an expense allowance to reimburse it for costs it incurs to service the reinsured blocks. Actual costs and expense allowance amounts will be determined by expense studies to be conducted periodically. The pro forma adjustments have been prepared assuming that actual costs incurred during the pro forma periods, as determined under the company's historical cost structure and allocation methods, were reimbursed by an expense allowance.

In addition to investment assets transferred to UFLIC in exchange for a reinsurance recoverable asset from UFLIC, concurrently, the company contributed \$1.836 billion of capital to UFLIC which primarily represented the excess statutory capital in the company's insurance subsidiaries after giving effect to the reinsurance transactions. As a significant portion of the assets transferred and contributed were not owned for the entire period, the pro forma earnings adjustments to reduce net investment income and net realized investment gains were based upon a proportional allocation of investment income from the investment assets historically identified (1) as supporting the blocks of business reinsured for the reinsurance, and (2) as representing surplus of subsidiaries providing assets to be contributed to UFLIC for the contribution.

(c) Reflects adjustments for changes in the company's capitalization to exclude the impact of commercial paper, short-term borrowings from GE Capital and derivatives that were not transferred to the company and are excluded from the company's historical combined statement of financial position at June 30, 2004, and to include the impact of the issuance of \$600 million of the company's 6.00% Equity Units and \$100 million of the company's 5.25% mandatorily redeemable Series A Cumulative Preferred Stock, both of which were completed on May 24, 2004, the issuance of 3, 5, 10 and 30 year notes totaling \$1.9 billion which was completed June 15, 2004, and the issuance of \$500 million of commercial paper which was completed June 14, 2004, as well as interest expense related to the accretion of the company's obligation to GE under the Tax Matters Agreement and the tax impacts resulting from these changes in the company's capitalization.

1 Annualized first-year premiums relate only to new sales and is calculated as if they are consistently paid for the full period of the sale even if they were actually paid for only a portion of the period of the sale.

2

Gross written premiums represent to total premiums for insurance written and reinsurance assumed during a given period. **Deposits** represent additional investments on spread-based non-life-contingent products and on fee-based products during a specific period. 3 4

New insurance written represents the original principal balance of mortgages covered by newly issued primary mortgage insurance during the period.

CORPORATE INFORMATION

Industry Ratings

Our principal life insurance subsidiaries are rated by A.M. Best, S&P, Moody's and Fitch as follows:

Company	A.M. Best rating	S&P rating	Moody's rating	Fitch rating
American Mayflower Life Insurance Company of New York	A+	AA-	Aa3	AA-
Federal Home Life Insurance Company	A+	Not rated	Aa3	AA-
First Colony Life Insurance Company	A+	AA-	Aa3	AA-
GE Capital Life Assurance Company of NY	A+	AA-	Aa3	AA-
GE Life and Annuity Assurance Company	A+	AA-	Aa3	AA-
GE Group Life Assurance Company	А	AA-	Not rated	Not rated
General Electric Capital Assurance Company	A+	AA-	Aa3	AA-
Our mortgage insurance subsidiaries are rated by S&P, Moody's and Fitch as follows:				
Company(1)		S&P rating	Moody's rating	Fitch rating
General Electric Mortgage Insurance Corporation		AA	Aa2	AA
GE Mortgage Insurance Company Pty. Limited		AA	Aa2	AA
GE Mortgage Insurance Limited		AA	Aa2	AA

(1) Our Canadian mortgage insurance company is not rated by any of the rating agencies shown above.

The A.M. Best, S&P, Moody's and Fitch ratings are not designed to be, and do not serve as, measures of protection or valuation offered to investors. These financial strength ratings should not be relied on with respect to making an investment in our securities.

A.M. Best states that its "A+" (Superior) rating is assigned to those companies that have, in its opinion, a superior ability to meet their ongoing obligations to policyholders. The "A+" (Superior) rating is the second-highest of sixteen ratings assigned by A.M. Best, which range from "A++" to "S".

Industry Ratings (continued)

S&P states that an insurer rated "AA" (Very Strong) has very strong financial security characteristics that outweigh any vulnerabilities, and is highly likely to have the ability to meet financial commitments. The "AA" range is the second-highest of the four ratings ranges that meet these criteria, and also is the second-highest of nine financial strength rating ranges assigned by S&P, which range from "AAA" to "R." A plus (+) or minus (-) shows relative standing in a rating category. Accordingly, the "AA" and "AA-" ratings are the third- and fourth-highest of S&P's 21 ratings categories.

Moody's states that insurance companies rated "Aa" (Excellent) offer excellent financial security. Moody's states that companies in this group constitute what are generally known as high-grade companies. The "Aa" range is the second-highest of nine financial strength rating ranges assigned by Moody's, which range from "Aaa" to "C." Numeric modifiers are used to refer to the ranking within the group, with 1 being the highest and 3 being the lowest. Accordingly, the "Aa2" and "Aa3" ratings are the third- and fourth-highest of Moody's 21 ratings categories.

Fitch states that "AA" (Very Strong) rated insurance companies are viewed as possessing very strong capacity to meet policyholder and contract obligations. Risk factors are modest, and the impact of any adverse business and economic factors is expected to be very small. The "AA" rating category is the second-highest of eight financial strength rating categories, which range from "AAA" to "D." The symbol (+) or (-) may be appended to a rating to indicate the relative position of a credit within a rating category. These suffixes are not added to ratings in the "AAA" category or to ratings below the "CCC" category. Accordingly, the "AA" and "AA-" ratings are the third- and fourth-highest of Fitch's 24 ratings categories.

A.M. Best, S&P, Moody's and Fitch review their ratings periodically and we cannot assure you that insurance subsidiaries on a solicited or an unsolicited basis.
