NEWS RELEASE

Genworth Financial Announces First Quarter 2011 Results 30 Percent¹ Increase In International Net Operating Income Four Percent Increase In Retirement & Protection Net Operating Income Seven Percent Sequential Quarter Decrease In U.S. Mortgage Insurance Delinquencies

Richmond, VA (May 3, 2011) – Genworth Financial, Inc. (NYSE: GNW) today reported results for the first quarter of 2011. The company reported net income of \$82 million, or \$0.17 per diluted share, compared with net income of \$178 million, or \$0.36 per diluted share, in the first quarter of 2010. Prior year net income included a \$106 million, or \$0.21 per diluted share, non-recurring tax benefit and a \$26 million, or \$0.05 per diluted share, higher level of investment losses, net of tax and other adjustments. Net operating income³ for the first quarter of 2011 was \$98 million, or \$0.20 per diluted share, compared with net operating income of \$114 million, or \$0.23 per diluted share, in the first quarter of 2010.

"In the first quarter, we continued to deliver strong international performance, demonstrated sales and earnings progress in Retirement and Protection, and are seeing improving credit trends in U.S. Mortgage Insurance," said Michael D. Fraizer, chairman and chief executive officer. "International results reflected improvements in lifestyle protection and steady performance in Australia and Canada. Retirement and Protection continued its sales momentum across key lines, while life insurance profits improved. In U.S. Mortgage Insurance, we continued to execute our plan to return to profitability. Flow delinquencies declined on a sequential basis, loss mitigation benefits are on track to achieve full year targets, we added high margin new business and continued to implement actions to maintain capital flexibility. Overall, we remain focused on sustaining the

performance of our leading platforms, continuing to improve performance in U.S. life insurance lines and U.S. Mortgage Insurance, and taking actions to optimize capital allocation."

Consolidated Net Income & Net Operating Income

| | Three months ended March 31 (Unaudited) 2011 2010 | | | |
|---|--|----------------|----------|----------------|
| | | | 010 | |
| (An another in millions, an and a second second | Total | Per diluted | Total | Per diluted |
| (Amounts in millions, except per share) | Total | share | Total | share |
| Net income | \$ 82 | \$ 0.17 | \$ 178 | \$ 0.36 |
| Net operating income | \$ 98 | \$ 0.20 | \$ 114 | \$ 0.23 |
| Weighted average diluted shares | 494.4 | | 493.5 | |
| Book value per share | \$ 28.70 | | \$ 26.36 | |
| Book value per share, excluding accumulated other comprehensive income (loss) | \$ 25.40 | | \$ 25.65 | |

Net income in the prior year period included a \$106 million non-recurring tax benefit related to the separation from the company's former parent. Net investment losses, net of tax and other adjustments, decreased to \$16 million in the quarter from \$42 million in the prior year.

Segment Net Operating Income (Loss)

| (Amounts in millions) | <u>Q1 11</u> | Q1 10 |
|-----------------------------------|--------------|--------|
| Retirement and Protection | \$ 127 | \$ 122 |
| International | 124 | 91 |
| U.S. Mortgage Insurance (U.S. MI) | (81) | (36) |

Net operating income (loss) excludes net investment gains (losses) and other adjustments, net of taxes. In the discussion of International results, all references to percentage changes exclude the impact of foreign exchange. Percentage changes, which include the impact of foreign exchange, are found in a table at the end of this press release. The impact of foreign exchange on net operating income in the first quarter of 2011 was a favorable \$6 million versus the prior year.

A reconciliation of net operating income (loss) of segments and Corporate and Other activities to net income is included at the end of this press release.

Retirement and Protection

Highlights

- Total segment operating revenue⁴ increase of six percent driven by strong life sales, continued positive net flows in wealth management and improved investment performance.
- Strong new sales in life and long term care (LTC) insurance.
- · Earnings growth of four percent reflecting earnings on new blocks of life business and earnings growth of ten percent excluding the variable annuity exit charge.
- Sound consolidated risk based capital (RBC) ratio in excess of the company's year end 2011 base target.

Retirement and Protection Net Operating Income

| (Amounts in millions) | Q1 11 | Q1 10 |
|---------------------------------|---------------|--------|
| Life Insurance | \$ 52 | \$ 37 |
| Long Term Care | 40 | 40 |
| Wealth Management | 10 | 11 |
| Retirement Income | | |
| Spread-Based | 14 | 17 |
| Fee-Based | 11 | 17 |
| Total Retirement and Protection | <u>\$ 127</u> | \$ 122 |

Operating revenue is a non-GAAP measure that excludes net investment gains (losses). Total segment operating revenue excludes net investment losses of \$28 million and \$67 million for the three months ended March 31, 2011 and 2010, respectively. Total segment revenue, including net investment losses, changed nine percent for the same period. See the Use of Non-GAAP Measures section of this press release for additional information.

Sales

| (Amounts in millions) | Q1 11 | Q1 10 |
|--------------------------------------|----------|----------|
| Life Insurance ⁵ | \$ 101 | \$ 63 |
| Long Term Care ⁵ | 65 | 56 |
| Wealth Management | | |
| Gross Flows | 2,058 | 1,475 |
| Net Flows | 355 | 504 |
| Retirement Income | | |
| Spread-Based ⁵ | 166 | 107 |
| Fee-Based | 134 | 205 |
| Assets Under Management ⁶ | | |
| (Amounts in millions) | Q1 11 | Q1 10 |
| Wealth Management | \$25,551 | \$20,037 |
| Retirement Income Spread-Based | 18,184 | 18,942 |
| Retirement Income Fee-Based | 9,102 | 8,486 |
| Total Assets Under Management | \$52,837 | \$47,465 |

Retirement and Protection earnings increased four percent to \$127 million compared with \$122 million a year ago. Results in the current quarter included a \$7 million exit charge associated with the company's previously announced plans to discontinue sales of individual variable and group annuities. Consolidated U.S. life companies ended the quarter with a RBC ratio of approximately 370 percent⁷.

Life insurance earnings were \$52 million compared with \$37 million in the prior year and included an \$8 million favorable cumulative impact from a recent change in premium taxes in Virginia. Results in the quarter reflected sound new business performance and higher investment income from limited partnerships. Total life sales increased 60 percent from the prior year reflecting strong ColonySM Term UL sales as well as growth in universal life excess

⁵ The sales associated with the linked-benefits product related to universal life insurance and single premium deferred annuities that were previously reported in the long term care insurance business are being reflected in the life insurance and spread-based retirement income businesses, respectively, for comparability purposes.

4

⁶ Assets under management represent account values, net of reinsurance, and managed third-party assets.

⁷ Company estimate for the first quarter of 2011, due to the timing of the filing of statutory statements.

deposits. ColonySM Term UL sales grew 29 percent versus the traditional term and ColonySM Term UL in the prior year, and average face amount on new business increased by nine percent to about \$357,000, reflecting continued progress in executing strategies to increase sales in the middle and mass affluent markets.

Long term care earnings were \$40 million and included a \$4 million unfavorable adjustment related to the accounting for interest rate swaps. Results in the current quarter reflected sound new business performance and the LTC loss ratio was consistent with the prior year. Individual LTC insurance sales increased \$15 million year over year, mainly from growth in the independent channel. During the quarter, the company launched a new wellness program, in collaboration with Mayo Clinic, to promote healthy aging and independent living.

Wealth management earnings were \$10 million and included an unfavorable tax adjustment. On a pre-tax basis, income increased \$3 million from the prior year to \$17 million. Wealth management net flows were \$355 million, the eighth consecutive quarter of positive net flows, and assets under management (AUM) grew to \$25.6 billion.

Retirement income spread-based earnings were \$14 million compared to \$17 million in the prior year, and reflected a \$3 million accrual related to guarantee funds. Total spread-based AUM decreased to \$18.2 billion.

Retirement income fee-based earnings were \$11 million compared with \$17 million in the prior year. Results in the current quarter included a \$7 million exit charge associated with discontinuing sales of individual variable and group annuities, which offset positive equity market performance. Results in the prior year quarter included an \$8 million favorable deferred acquisition cost (DAC) amortization adjustment.

International

Highlights

•

- · Sound earnings performance in Canada and Australia with improving earnings and margins in lifestyle protection.
- · Flow new insurance written (NIW) in Canada increase of five percent¹ from the prior year from increased account penetration and share recapture.
- Strong improvement in the lifestyle protection loss ratio.
- Steady year over year loss ratios reflecting seasonally higher loss ratios in Canada and economic impacts from flooding in Australia.
- Strong regulatory capital ratios in Canada, Australia and lifestyle protection well in excess of regulatory requirements.

Genworth MI Canada plans to repurchase approximately CAD \$160 million of its existing common shares, with the amount and timing subject to market conditions and customary approvals. Genworth expects to receive approximately CAD \$82 million after-tax in net proceeds, with no percentage change in ownership.

International Net Operating Income (Loss)

| (Amounts in millions) | Q1 11 | Q1 10 |
|-----------------------|--------|--------------|
| Mortgage Insurance | | |
| Canada | \$ 51 | \$ 41 |
| Australia | 52 | 43 |
| Other International | (4) | (5) |
| Lifestyle Protection | 25 | 12 |
| Total International | \$ 124 | \$ 91 |

Sales

| (Amounts in billions) | <u>Q1 11</u> | <u>Q1 10</u> |
|-------------------------|---------------|---------------|
| Mortgage Insurance (MI) | | |
| Flow | | |
| Canada | \$ 4.4 | \$ 4.0 |
| Australia | 5.5 | 6.7 |
| Other International | 0.5 | 0.7 |
| Bulk | | |
| Canada | 1.1 | 1.8 |
| Australia | 1.0 | 0.7 |
| Other International | 0.2 | |
| Total International MI | \$ 12.7 | \$ 13.9 |
| Lifestyle Protection | <u>\$ 0.4</u> | <u>\$ 0.4</u> |

International earnings increased 30 percent⁴ to \$124 million primarily driven by a \$20 million increase in international mortgage insurance and a \$13 million increase in lifestyle protection.

Canadian operating earnings increased 20 percent¹ from the prior year, primarily from \$9 million acceleration of full year tax benefits. The loss ratio remained at 38 percent. Flow NIW in Canada increased five percent¹ from the prior year but declined sequentially, as is typical in the winter months.

The regulatory capital ratio in Canada at quarter end was 155 percent, remaining well in excess of requirements. GAAP book value for the Canada MI business was \$2.7 billion at quarter end, of which \$1.5 billion represented Genworth's 57.5 percent ownership interest. Genworth MI Canada, as part of its ongoing capital planning to create a more efficient capital structure while maintaining flexibility to support growth, plans to repurchase approximately CAD \$160 million of its existing common shares, with the amount and timing subject to market conditions and customary approvals. Genworth expects to receive approximately CAD \$82 million after-tax in net proceeds, with no percentage change in ownership.

Australia operating earnings increased nine percent from the prior year, but were down \$3 million sequentially, including a \$5 million impact from economic disruption in areas impacted by January's flooding, primarily in Queensland. The loss ratio increased to 45 percent, up one point compared to a year ago and eight points sequentially, reflecting reserve strengthening associated with the flooding. Flow NIW decreased 27 percent¹ compared to the prior year primarily reflecting a smaller origination market.

The regulatory capital ratio in Australia at quarter end was 162 percent, well in excess of requirements. The ratio increased sequentially, reflecting in force profitability and portfolio seasoning. GAAP book value for Australia mortgage insurance at quarter end was \$2.0 billion.

Lifestyle protection earnings were \$25 million, up \$13 million from the prior year reflecting improved operating margins and a reduction in the loss ratio to 15 percent as a result of lower claims levels and 2010 pricing and contract restructuring actions. Overall, lifestyle protection is on track to achieve its operating margin improvement target of approximately 300 basis points in 2011. Sales remained relatively stable as lending remained below pre-recessionary levels.

The lifestyle protection regulatory capital ratio at quarter end was approximately 280 percent, well in excess of requirements.

U.S. Mortgage Insurance

Highlights

- Total flow delinquencies decline of seven percent sequentially, compared with a historical average seasonal decline of four percent.
- Loss mitigation activities savings of \$122 million in the quarter, with the business on track to achieve an estimated full year benefit of \$400 million to \$500 million.
- Flow NIW in U.S. MI growth of 33 percent from the prior year while declining 23 percent sequentially reflecting combined effects of industry share recapture and a smaller origination market.

U.S. Mortgage Insurance

| (Amounts in millions) Net Operating Loss | <u>Q1 11</u> \$ (81) | Q1 10 \$ (36) |
|---|-------------------------|------------------------|
| Primary Sales | | |
| (Amounts in billions) | <u>Q1 11</u> | Q1 10 \$ 1.5 |
| Flow Bulk | \$ 2.0 <u>0.4</u> | \$ 1.5 <u>0.2</u> |
| Total Primary Sales | <u>\$ 2.4</u> | <u>\$ 1.7</u> |

U.S. MI had an \$81 million net operating loss reflecting lower loss mitigation benefits and continued aging of delinquent loans, partially offset by declining new delinquencies primarily from the 2005 to 2007 book years.

Total flow delinquencies declined seven percent sequentially in the first quarter, reflecting lower new delinquencies, improved cures and higher flow paid claims. New flow delinquencies decreased eight percent sequentially, reflecting both a normal seasonal decline and lower delinquencies from the 2005 to 2007 book years, with seasonal improvement during the course of the quarter. Favorable seasonal patterns began developing later in the quarter, in particular with improving cure ratios⁸ and lower new delinquencies. The flow average reserve per delinquency increased sequentially to \$25,400 from \$24,300, with continued aging of remaining delinquencies.

Loss mitigation activities, including workouts, presales, policy rescissions and targeted settlements, net of reinstatements, resulted in \$122 million of savings in the quarter, a decline from the fourth quarter as certain loan modifications slowed and modifications continued to shift from the Home Affordable Modification Program (HAMP) to alternative programs. First quarter results are consistent with the company's estimated full year loss mitigation benefit of \$400 million to \$500 million.

⁸ The number of cured delinquencies divided by the number of new delinquencies in the period.

Flow NIW increased 33 percent over the prior year and decreased 23 percent sequentially reflecting the combined effects of industry share recapture and a smaller origination market. Mortgage insurance penetration was up slightly on a sequential basis. The company's market share is estimated to have remained stable. In addition, the Home Affordable Refinance Program (HARP) accounted for about \$840 million of insurance that is treated as a modification of the coverage on existing insurance in force rather than NIW.

Genworth continued to execute strategies to support capital flexibility. Genworth Mortgage Insurance Corporation (GEMICO), Genworth's primary mortgage insurance company, was granted waivers or other communications from 45 states that permit the company to continue writing new business while its risk-to-capital ratio exceeds 25:1. In the remaining states, new business will be written out of other legal entities unless waivers or other communications are obtained. At the end of the first quarter, the combined U.S. MI statutory risk-to-capital ratio was 25:0:17. The quarter end ratio for GEMICO was 27.7:17.

Corporate and Other

Corporate and Other's net operating loss was \$72 million compared with \$63 million in the prior year quarter. Results in the current year reflected higher taxes partially offset by higher investment income from improved limited partnership performance. On a pre-tax basis, the loss improved by \$33 million year over year.

Holding Company

Genworth's holding company ended the quarter with \$1.3 billion of cash and highly liquid securities, up \$0.3 billion sequentially. During the quarter, the holding company issued \$400 million of senior notes, completing its 2011 planned debt issuance and expects to receive approximately \$350 million in operating company dividends from international subsidiaries in 2011. Cash levels and dividend plans position the company effectively to execute 2011 and 2012 debt retirements and planned capital structure optimization.

Investments

The core yield remained stable sequentially at 4.6 percent despite declining interest rates. In addition, during the quarter, the company entered into \$1.0 billion of interest rate hedging transactions for the benefit of its LTC business.

Net income in the quarter included \$16 million of net investment losses, net of tax and other adjustments. Excluding \$6 million of mark to market valuation gains from securitization entities, after-tax net investment losses were \$22 million, which included \$23 million of net other-than-temporary impairments.

Net unrealized investment losses were \$37 million, net of tax and other items, as of March 31, 2011, compared with \$860 million as of March 31, 2010. The fixed maturity securities portfolio had gross unrealized investment gains of \$2.0 billion compared with \$1.5 billion as of March 31, 2010 and gross unrealized investment losses of \$1.5 billion compared with \$2.7 billion as of March 31, 2010.

About Genworth Financial

Genworth Financial, Inc. (NYSE:GNW) is a leading Fortune 500 global financial security company. Genworth has more than \$100 billion in assets and employs approximately 6,500 people with a presence in more than 25 countries. The dial-in number for Genworth's May 4, 2011 conference call is 877 852.6583 or 719 325.4849 (outside the U.S.). To participate in the call by webcast, register at http://investor.genworth.com at least 15 minutes prior to the webcast to download and install any necessary software.

The webcast will be archived on the company's website and a replay of the call will be available at 888 203.1112 or 719 457.0820 (outside the U.S.); passcode 7928272, through May 18, 2011.

Use of Non-GAAP Measures

This press release includes the non-GAAP financial measure entitled "net operating income (loss)." The chief operating decision maker evaluates segment performance and allocates resources on the basis of net operating income (loss). The company defines net operating income (loss) as income (loss) from continuing operations excluding net income attributable to noncontrolling interests, after-tax net investment gains (losses) and other adjustments and infrequent or unusual non-operating items. This metric excludes these items because the company does not consider them to be related to the operating performance of the company's segments and Other activities. A component of net investment gains (losses) is the result of impairments, the size and timing of which can vary significantly depending on market credit cycles. In addition, the size and timing of other investment gains (losses) can be subject to Genworth's discretion and are influenced by market opportunities, as well as asset-liability matching considerations. Infrequent or unusual non-operating items are also excluded from net operating income (loss) if, in the company's opinion, they are not indicative of overall operating trends. While some of these items may be significant components of net income (loss), are appropriate measures that are derived from or incorporate net operating income (loss), are appropriate measures that are useful to investors because

they identify the income (loss) attributable to the ongoing operations of the business. However, net operating income (loss) is not a substitute for net income (loss) determined in accordance with GAAP. In addition, the company's definition of net operating income (loss) may differ from the definitions used by other companies. There were no infrequent or unusual non-operating items excluded from net operating income (loss) during the periods presented in this press release other than a \$106 million tax benefit related to separation from the company's former parent recorded in the first quarter of 2010. The tables at the end of this press release reflect net operating income (loss) as determined in accordance with accounting guidance related to segment reporting, and a reconciliation of net operating income (loss) of the company's segments and Corporate and Other activities to net income for the three months ended March 31, 2011 and 2010.

This press release includes the non-GAAP financial measure entitled "operating revenue." The company defines operating revenue as revenue excluding net investment gains (losses). The company believes that operating revenue, and measures that are derived from or incorporate operating revenue, is an appropriate measure that is useful to investors because it identifies the revenue attributable to the ongoing operations of the business. However, operating revenue is not a substitute for revenue determined in accordance with GAAP. In addition, the company's definition of operating revenue may differ from the definitions used by other companies.

This press release also includes the non-GAAP measure entitled "operating margin" related to the lifestyle protection business. The company defines operating margin as income (loss) from continuing operations before income taxes excluding net investment gains (losses) divided by total revenues excluding net investment gains (losses). Management believes that this analysis of operating margin enhances the understanding of the lifestyle protection business. However, operating margin as defined by the company should not be viewed as a substitute for GAAP margin. In addition, the company's definition of operating margin may differ from the definitions used by other companies.

This press release includes the non-GAAP financial measure entitled "core yield" as a measure of investment yield. The company defines core yield as the investment yield adjusted for those items that are not recurring in nature. Management believes that analysis of core yield enhances understanding of the investment yield of the company. However, core yield as defined by the company should not be viewed as a substitute for GAAP investment yield. In addition, the company's definition of core yield may differ from the definitions used by other companies. A reconciliation of core yield to reported GAAP yield is included in a table at the end of this press release.

Definition of Selected Operating Performance Measures

The company reports selected operating performance measures including "sales," "assets under management" and "insurance in force" or "risk in force" which are commonly used in the insurance and investment industries as measures of operating performance.

Management regularly monitors and reports sales metrics as a measure of volume of new and renewal business generated in a period. Sales refer to: (1) annualized first-year premiums for term life, long term care and Medicare supplement insurance; (2) new and additional premiums/deposits for universal life insurance, term universal life insurance, linked-benefits, spread-based and variable products; (3) gross and net flows, which represent gross flows less redemptions, for the wealth management business; (4) written premiums and deposits, gross of ceded reinsurance and cancellations, and premium

equivalents, where the company earns a fee for administrative services only business, for the lifestyle protection insurance business; (5) new insurance written for mortgage insurance; and (6) written premiums, net of cancellations, for the Mexican insurance operations, which in each case reflects the amount of business the company generated during each period presented. Sales do not include renewal premiums on policies or contracts written during prior periods. The company considers annualized first-year premiums, new premiums/deposits, gross and net flows, written premiums, premium equivalents and new insurance written to be measures of the company's operating performance because they represent a measure of new sales of insurance policies or contracts during a specified period, rather than a measure of the company's revenues or profitability during that period.

Management regularly monitors and reports assets under management for the wealth management business, insurance in force and risk in force. Assets under management for the wealth management business, insurance in force and risk in force for the life, international mortgage and U.S. mortgage insurance businesses is a measure of the aggregate face value of outstanding insurance policies as of the respective reporting date. For the risk in force in the international mortgage insurance business, the company has computed an "effective" risk in force amount, which recognizes that the loss on any particular loan will be reduced by the net proceeds received upon sale of the property. Effective risk in force has been calculated by applying to insurance in force a factor of 35 percent that represents the company's highest expected average per-claim payment for any one underwriting year over the life of the company's businesses in Canada, Australia and New Zealand. Risk in force for the U.S. mortgage insurance business is the obligation that is limited under contractual terms to the amounts less than 100 percent of the mortgage loan value. The company considers assets under management for the wealth management business, insurance in force and risk in force to be measures of the company's operating performance because they represent measures of the size of the business at a specific date which will generate revenues and profits in a future period, rather than measures of the company's revenues or profitability during that period.

This press release also includes information related to loss mitigation activities for the U.S. mortgage insurance business. The company defines loss mitigation activities as rescissions, cancellations, borrower loan modifications, repayment plans, lender- and borrower-titled presales and other loan workouts and claim mitigation actions. Estimated savings related to rescissions are the reduction in carried loss reserves, net of premium refunds and reinstatement of prior rescissions. Estimated savings related to loan modifications and other cure related loss mitigation actions represent the reduction in carried loss reserves. For non-cure related actions, including presales, the estimated savings represent the difference between the full claim obligation and the actual amount paid. The company believes that this information helps to enhance the understanding of the operating performance of the U.S. mortgage insurance business as they specifically impact current and future loss reserves and level of claim payments.

These operating measures enable the company to compare its operating performance across periods without regard to revenues or profitability related to policies or contracts sold in prior periods or from investments or other sources.

Cautionary Note Regarding Forward-Looking Statements

This press release contains certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may be identified by words such as "expects," "intends," "anticipates," "plans," "believes," "seeks," "estimates," "will" or words of similar meaning and include, but are not limited to, statements regarding the outlook for the company's future business and financial performance. Forward-looking statements are based on management's current expectations and assumptions, which are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. Actual outcomes and results may differ materially due to global political, economic, business, competitive, market, regulatory and other factors and risks, including the following:

• *Risks relating to the company's businesses*, including downturns and volatility in global economies and equity and credit markets, downgrades in the company's financial strength or credit ratings, interest rate fluctuations and levels, adverse capital and credit market conditions, the valuation of fixed maturity, equity and trading securities, defaults, downgrade or other events impacting the value of the

company's fixed maturity securities portfolio, defaults on the company's commercial mortgage loans or the mortgage loans underlying the company's investments in commercial mortgage-backed securities and volatility in performance, goodwill impairments, default by counterparties to reinsurance arrangements or derivative instruments, an adverse change in risk based capital and other regulatory requirements, insufficiency of reserves, legal constraints on dividend distributions by the company's subsidiaries, competition, availability, affordability and adequacy of reinsurance, loss of key distribution partners, regulatory restrictions on the company's operations and changes in applicable laws and regulations, legal or regulatory investigations or actions, the failure or any compromise of the security of the company's computer systems, the occurrence of natural or man-made disasters or a pandemic, the effect of the enactment of the Dodd-Frank Wall Street Reform and Consumer Protection Act, changes in the accounting standards issued by the Financial Accounting Standards Board or other standard-setting bodies and impairments of or valuation allowances against the company's deferred tax assets;

- Risks relating to the company's Retirement and Protection segment, including changes in morbidity and mortality, accelerated amortization of deferred acquisition
 costs and present value of future profits, reputational risks as a result of rate increases on certain in force long term care insurance products, medical advances,
 such as genetic research and diagnostic imaging, and related legislation, unexpected changes in persistency rates, ability to continue to implement actions to
 mitigate the impact of statutory reserve requirements and the failure of demand for long term care insurance to increase;
- Risks relating to the company's International segment, including political and economic instability or changes in government policies, foreign exchange rate
 fluctuations, unexpected changes in unemployment rates, unexpected increases in mortgage insurance default rates or severity of defaults, the significant portion of
 high loan to value insured international mortgage loans which generally result in more and larger claims than lower loan-to-value ratios, competition with
 government owned and government sponsored enterprises offering mortgage insurance and changes in regulations;
- Risks relating to the company's U.S. Mortgage Insurance segment including increases in mortgage insurance default rates, failure to meet, or have waived to the

extent needed, the minimum statutory capital requirements and hazardous financial condition standards, uncertain results of continued investigations of insured U.S. mortgage loans, possible rescissions of coverage and the results of objections to our rescissions, the extent to which loan modifications and other similar programs may provide benefits to the company, unexpected changes in unemployment and underemployment rates, further deterioration in economic conditions or a further decline in home prices, problems associated with foreclosure process defects that may defer claim payments, changes to the role or structure of Federal National Mortgage Association (Fannie Mae) and Federal Home Loan Mortgage Corporation (Fredie Mac), competition with government owned and government sponsored enterprises offering mortgage insurance, changes in regulations that affect the U.S. mortgage insurance business, the influence of Fannie Mae, Freddie Mac and a small number of large mortgage lenders and investors, decreases in the volume of high loan to value mortgage originations or increases in mortgage insurance cancellations, increases in the use of alternatives to private mortgage insurance and reductions by lenders in the level of coverage they select, the impact of the use of reinsurance with reinsurance companies affiliated with mortgage lending customers, legal actions under the Real Estate Settlement Procedures Act of 1974 and potential liabilities in connection with the company's underwriting services;

- Other risks, including the possibility that in certain circumstances the company will be obligated to make payments to General Electric Company (GE) under the
 tax matters agreement with GE even if the company's corresponding tax savings are never realized and payments could be accelerated in the event of certain
 changes in control and provisions of the company's certificate of incorporation and bylaws and the tax matters agreement with GE may discourage takeover
 attempts and business combinations that stockholders might consider in their best interests; and
- · Risks relating to the company's common stock, including the suspension of dividends and stock price fluctuations.

The company undertakes no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise.

Dear Investor,

Once again, thank you for your continued interest in Genworth Financial.

Please feel free to call with any questions or comments.

Regards,

Alicia Charity Senior Vice President Investor Relations 804 662.2248

Diana Hickert-Hill Vice President Investor Relations 804 662.2643

Use of Non-GAAP Measures

This financial supplement includes the non-GAAP⁽¹⁾ financial measure entitled "net operating income (loss)." The chief operating decision maker evaluates segment performance and allocates resources on the basis of net operating income (loss). The company defines net operating income (loss) as income (loss) from continuing operations excluding net income attributable to noncontrolling interests, after-tax net investment gains (losses) and other adjustments and infrequent or unusual non-operating items. The company excludes net investment gains (losses) and infrequent or unusual non-operating items because the company does not consider them to be related to the operating performance of the company's segments and Corporate and Other activities. A component of net investment gains (losses) is the result of impairments, the size and timing of which can vary significantly depending on market credit cycles. In addition, the size and timing of other investment gains (losses) can be subject to the company's discretion and are influenced by market opportunities, as well as asset-liability matching considerations. Infrequent or unusual non-operating income (loss), and measures that are derived from or incorporate net operating income (loss), are appropriate measures that are useful to investors because they identify the income (loss) attributable to Genworth Financial, Inc.'s common stockholders determined in accordance with GAAP. In addition, the company's definition of net operating income (loss) any adiable to Genworth Financial, Inc.'s common stockholders determined in accordance with GAAP. In addition, the company's definition of net operating income (loss) as adiable to Genworth Financial, Inc.'s common stockholders determined in accordance with GAAP. In addition, the company's definition of net operating income (loss) as adiable to Genworth Financial, Inc.'s common stockholders determined in accordance with GAAP. In addition, the company's definition of net operating income (loss) as adiable to Genworth Financial

Selected Operating Performance Measures

This financial supplement contains selected operating performance measures including "sales," "assets under management" and "insurance in-force" or "risk in-force" which are commonly used in the insurance and investment industries as measures of operating performance.

Management regularly monitors and reports sales metrics as a measure of volume of new and renewal business generated in a period. Sales refer to: (1) annualized first-year premiums for term life, long-term care and Medicare supplement insurance; (2) new and additional premiums/deposits for universal life insurance, term universal life insurance, inked-benefits, spread-based and variable products; (3) gross and net flows, which represent gross flows less redemptions, for the wealth management business; (4) written premiums and deposits, gross of ceded reinsurance and cancellations, and premium equivalents, where the company earns a fee for administrative services only business, for the lifestyle protection insurance business; (5) new insurance written for mortgage insurance; and (6) written premiums, net of cancellations, for the Mexican insurance operations, which in each case reflects the amount of business the company generated during each period presented. Sales do not include renewal premiums on policies or contracts written during prior periods. The company considers annualized first-year premiums, new premiums/deposits, gross and net flows, written premiums, premiume equivalents and new insurance written to be a measure of the company's operating performance because they represent a measure of new sales of insurance policies or contracts written during a specified period, rather than a measure of the company's revenues or profitability during that period.

Management regularly monitors and reports assets under management for the wealth management business, insurance in-force and risk in-force. Assets under management for the wealth management business represent thirdparty assets under management that are not consolidated in the company's financial statements. Insurance in-force for the life, international mortgage and U.S. mortgage insurance businesses is a measure of the aggregate face value of outstanding insurance policies as of the respective reporting date. For the risk in-force in the international mortgage insurance business, we have computed an "effective" risk in-force amount, which recognizes that the loss on any particular loan will be reduced by the net proceeds received upon sale of the property. Effective risk in-force has been calculated by applying to insurance business is the obligation that is limited average per-claim payment for any one underwriting year over the life of the company's businesses in Canada, Australia and New Zealand. Risk in-force for the U.S. mortgage insurance business is the obligation that is limited under contractual terms to the amounts less than 100% of the mortgage loan value. The company considers assets under management for the wealth management business, insurance in-force and risk in-force to be a measure of the company's operating performance because they represent a measure of the size of the business at a specific date which will generate revenues and profits in a future period, rather than a measure of the company's revenues or profitability during that period.

This financial supplement also includes information related to loss mitigation activities for the U.S. mortgage insurance business. The company defines loss mitigation activities as rescissions, cancellations, borrower loan modifications, repayment plans, lender- and borrower-titled pre-sales and other loan workouts and claim mitigation actions. Estimated savings related to rescissions are the reduction in carried loss reserves, net of premium refunds and reinstatement of prior rescissions. Estimated savings related to loan modifications and other cure related loss mitigation actions represent the reduction in carried loss reserves. For non-cure related actions, including pre-sales, the estimated savings represent the difference between the full claim obligation and the actual amount paid. The company believes that this information helps to enhance the understanding of the operating performance of the U.S. mortgage insurance business as they specifically impact current and future loss reserves and level of claim payments.

These operating measures enable the company to compare its operating performance across periods without regard to revenues or profitability related to policies or contracts sold in prior periods or from investments or other sources.

4

(1) The Income Distribution Series products are comprised of the deferred and immediate variable annuity products with rider options, that provide guaranteed income benefits including guaranteed minimum withdrawal benefits and certain types of guaranteed annuitization benefits. These products do not include fixed single premium immediate annuities or deferred annuities, which may also serve income distribution needs.

(2) The traditional variable annuities include products that provide the potential for tax deferred growth on the policyholder's premium. These products do not provide the opportunity for a living benefit through guaranteed minimum withdrawal benefits; however, similar to the Income Distribution Series products, they do provide a variety of guaranteed minimum death benefit options.

In the first quarter of 2011, the company began reporting the results of the linked-benefits product for universal life insurance and single premium deferred annuities in the life insurance and spread-based retirement income businesses, respectively. The linked-benefits product was previously reported in the long-term care insurance business. The amounts associated with this product were not material and the prior period amounts in the financial statements have not been re-presented.

(1) The sales associated with linked-benefits products related to universal life insurance and single premium deferred annuities that were previously reported in the long-term care insurance business are being reflected in the life insurance and spread-based retirement income businesses, respectively, for comparability purposes.

(2) The loss ratio for the long-term care insurance products was calculated by dividing benefits and other changes in policy reserves less tabular interest on reserves less loss adjustment expenses by net earned premiums. The gross benefits ratio for the long-term care insurance products was calculated by dividing the benefits and other changes in policy reserves by net earned premiums. Net earned premiums and loss ratios for Medicare Supplement and A&H did not include the linked-benefits product in 2010. (3)

The loss and expense ratios included above were calculated using whole dollars and may be different than the ratios calculated using the rounded numbers included herein.

(1) Includes the impact of settlements and cancelled insurance contracts, primarily with lenders in Europe.

(2) The ratio of incurred losses and loss adjustment expense to net earned premiums. In determining the pricing of the mortgage insurance products, the company develops a pricing loss ratio which uses industry and company loss experience over a number of years, which incorporate both favorable and unfavorable economic environments, differing coverage levels and varying capital requirements. Actual results may vary from pricing loss ratios for a number of reasons, which include differing economic conditions and actual individual product and lender performance. New business pricing loss ratios for the international businesses were as follows for all periods: Canada 35%-40%, Australia 25%-35% and Europe 40%-45%.

(3) The ratio of an insurer's general expenses to net earned premiums. In the business, general expenses consist of acquisition and operating expenses, net of deferrals, and amortization of deferred acquisition costs ("DAC") and intangibles.

(4) The ratio of an insurer's general expenses to net premiums written. In the business, general expenses consist of acquisition and operating expenses, net of deferrals, and amortization of DAC and intangibles.

(5) The businesses in Australia, New Zealand and Canada currently provide 100% coverage on the majority of the loans the company insures in those markets. For the purpose of representing the risk in-force, the company has computed an "effective risk in-force" amount which recognizes that the loss on any particular loan will be reduced by the net proceeds received upon sale of the property. Effective risk in-force has been calculated by applying to insurance in-force a factor that represents the highest expected average per-claim payment for any one underwriting year over the life of the businesses in Australia, New Zealand and Canada. This factor was 35% for all periods presented.

(6) "NM" is defined as not meaningful for increases or decreases greater than 500%.

The expense ratios included above were calculated using whole dollars and may be different than the ratios calculated using the rounded numbers included herein.

(1) The ratio of an insurer's general expenses to net earned premiums. In the business, general expenses consist of acquisition and operating expenses, net of deferrals and amortization of DAC and intangibles.

(2) The ratio of an insurer's general expenses to net written premiums. In the business, general expenses consist of acquisition and operating expenses, net of deferrals and amortization of DAC and intangibles.

Certain states limit a private mortgage insurer's risk in-force to 25 times the total of the insurer's policyholders' surplus plus the statutory contingency reserve, commonly known as the "risk to capital" requirement. The risk to capital ratio for the U.S. mortgage insurance business is not available for the current period due to the timing of the statutory statement filings. In the first quarter of 2010, the company reached a settlement with a GSE counterparty regarding certain bulk Alt-A business. Delinquency cures included approximately 10,100 cures related to this settlement. (3)

| Ending Reinsurance Recoverable | \$ 264 | \$ 351 | \$ 463 | \$ 591 | \$ 634 | \$ 351 |
| Loss Ratio ⁽⁴⁾ | 197% | 457% | 263% | 141% | 138% | 251% |
| Estimated Savings For Loss Mitigation Activities (5) | \$ 122 | \$ 126 | \$ 158 | \$ 217 | \$ 233 | \$ 734 |

The loss ratio included above was calculated using whole dollars and may be different than the ratio calculated using the rounded numbers included herein.

(1) Average direct net paid claim excludes the impact of reinsurance and negotiated servicer and GSE settlements.

(2) Reserves were not established on loans where the company was in a secondary loss position due to an existing deductible and the company believes currently have no risk for claim.

- (3) Reinsurance recoverable excludes ceded unearned premium recoveries and amounts for which cash proceeds have not yet been received.
- (4) The ratio of incurred losses and loss adjustment expense to net earned premiums. Excluding the GSE Alt-A business settlements in the first and second quarters of 2010, the loss ratio was 253% for the twelve months ended December 31, 2010 and 144% and 141% for the three months ended June 30, 2010 and March 31, 2010, respectively.
- (5) Loss mitigation activities include rescissions, cancellations, borrower loan modifications, repayment plans, lender- and borrower-titled pre-sales and other loan workouts and claim mitigation actions. Estimated savings for rescissions represent the reduction in carried loss reserves, net of premium refunds and reinstatement of prior rescissions. Estimated savings for loan modifications and other cure related loss mitigation actions represent the reduction in carried loss reserves. For non-cure related actions, including pre-sales, the estimated savings represent the difference between the full claim obligation and the actual amount paid.
- (6) Net paid claims and change in reserves include the impact of settlements that the company reached during the second quarter of 2010 with a GSE counterparty regarding certain bulk Alt-A business and with a servicer regarding rescissions.
- (7) Excluding the GSE Alt-A business and the servicer settlements in the second quarter of 2010, the average paid claim was approximately \$45,800 in the second quarter of 2010.
 (8) In the first quarter of 2010, the company reached a settlement with a GSE counterparty regarding certain bulk Alt-A business. Net paid claims included \$180 million and the change in reserves included a decrease of \$185 million related to this settlement.

(9) Excluding the GSE Alt-A business settlement in the first quarter of 2010, the average paid claim was approximately \$49,100 in the first quarter of 2010.

(1)

For loan type in this table, any loan with an interest rate that is fixed for an initial term of five years or more is categorized as a fixed rate mortgage. Standard includes loans with reduced or different documentation requirements that meet specifications of GSE approved underwriting systems with historical and expected delinquency rates consistent with historical and expected delinquency rates consistent with the company's standard portfolio. (2)

(1)

(2)

Loans with unknown FICO scores are included in the 620-679 category. Delinquency rate represents the number of lender reported delinquencies divided by the number of remaining policies consistent with mortgage insurance practices. Alt-A consists of loans with reduced documentation or verification of income or assets and a higher historical and expected delinquency rate than standard documentation (3) loans.

(1) Data presented in aggregate for all trusts. Actual trust attachment and exit points will vary by individual lender contract. For purposes of this illustration, ever-to-date incurred losses equal current reserves plus ever-to-date paid claims. The information presented excludes quota share captive reinsurance data. Progress toward captive attachment is determined at a lender level for each book year by dividing ever-to-date incurred losses by original risk in-force for that book year.

⁽²⁾ Book year amounts may include loans from additional periods pursuant to reinsurance agreement terms and conditions.

⁽³⁾ Original book risk in-force and ever-to-date incurred losses include amounts for active captive books only.

Yields for fixed maturity securities and equity securities are based on amortized cost and cost, respectively. Yields for securities lending activity, which is included in other invested assets, are calculated net of the corresponding securities lending liability.

⁽¹⁾ Limited partnership investments are equity-based and do not have fixed returns by period.

Non-GAAP Definition for Operating ROE

The company references the non-GAAP financial measure entitled "operating return on equity" or "operating ROE." The company defines operating ROE as net operating income (loss) divided by average ending Genworth Financial, Inc.'s stockholders' equity, excluding accumulated other comprehensive income (loss) in average ending Genworth Financial, Inc.'s stockholders' equity. Management believes that analysis of operating ROE enhances understanding of the efficiency with which the company deploys its capital. However, operating ROE as defined by the company should not be viewed as a substitute for GAAP net income (loss) available to Genworth Financial, Inc.'s common stockholders divided by average ending Genworth Financial, Inc.'s stockholders' equity.

(1) The twelve months ended information is derived by adding the four quarters of net income (loss) available to Genworth Financial, Inc.'s common stockholders and net operating income (loss) from page 10 herein. (2) Quarterly average Genworth Financial, Inc.'s stockholders' equity, excluding accumulated other comprehensive income (loss), is derived by averaging ending Genworth Financial, Inc.'s stockholders' equity, excluding accumulated other comprehensive income (loss) for the most recent five quarters.

(3) Net income (loss) available to Genworth Financial, Inc.'s common stockholders and net operating income from page 10 herein.

Quarterly average Genworth Financial, Inc.'s stockholders' equity, excluding accumulated other comprehensive income (loss), is derived by averaging ending Genworth Financial, Inc.'s stockholders' equity, excluding (4) accumulated other comprehensive income (loss).

| Adjusted expense ratio (3) divided by (4) | <u>11.7</u> % | 13.2% | 11.7% | 12.4% | 12.1% | 12.4% |

Non-GAAP Definition for Expense Ratio

The company references the non-GAAP financial measure entitled "expense ratio" as a measure of productivity. The company defines expense ratio as acquisition and operating expenses, net of deferrals, divided by total revenues, excluding the effects of the company's wealth management and lifestyle protection insurance businesses. The wealth management and lifestyle protection insurance businesses are excluded from this ratio as their expense bases are comprised of varying levels of non-deferrable acquisition costs. Management believes that the expense ratio analysis enhances understanding of the productivity of the company. However, the expense ratio as defined by the company should not be viewed as a substitute for GAAP acquisition and operating expenses, net of deferrals, divided by total revenues.

Reconciliation of Core Premiums (amounts in millions)

| | 2011 | | | 2010 | | |
|--|---------|---------|---------|---------|---------|---------|
| | 1Q | 4Q | 3Q | 2Q | 1Q | Total |
| Reported premiums | \$1,437 | \$1,467 | \$1,447 | \$1,470 | \$1,470 | \$5,854 |
| Less retirement income—spread-based premiums | 20 | 45 | 42 | 32 | 36 | 155 |
| Less impact of changes in foreign exchange rates | 10 | (7) | (11) | 25 | 68 | 75 |
| Core premiums | \$1,407 | \$1,429 | \$1,416 | \$1,413 | \$1,366 | \$5,624 |
| Reported premium percentage change from prior year | -2.0% | -3.7% | -3.0% | -2.1% | -2.1% | -2.7% |
| Core premium percentage change from prior year | -1.5% | 1.3% | -5.9% | -9.2% | -13.3% | -7.0% |

Non-GAAP Definition for Core Premiums

The company references the non-GAAP financial measure entitled "core premiums" as a measure of premium growth. The company defines core premiums as earned premiums less premiums from the retirement income—spread-based business and the impact of changes in foreign exchange rates. The retirement income—spread-based premiums are excluded in this measure primarily because these are single premiums and are not an indication of future premiums. The impact of changes in foreign exchange rates are excluded in this measure to present periods on a comparable exchange rate. Management believes that analysis of core premiums enhances understanding of premium growth of the company. However, core premiums as defined by the company should not be viewed as a substitute for GAAP earned premiums.

Non-GAAP Definition for Core Yield

The company references the non-GAAP financial measure entitled "core yield" as a measure of investment yield. The company defines core yield as the investment yield adjusted for those items that are not recurring in nature. Management believes that analysis of core yield enhances understanding of the investment yield of the company. However, core yield as defined by the company should not be viewed as a substitute for GAAP investment yield.

⁽¹⁾ Floating products refer to institutional products and the non-recourse funding obligations that support certain term and universal life insurance reserves in the company's life insurance business.

- (2) Represents imputed investment income related to reinsurance agreements in the lifestyle protection insurance business.
- ⁽³⁾ Includes mark-to-market adjustment on assets supporting executive deferred compensation and various other immaterial items.

Corporate Information

Financial Strength Ratings

The company's principal life insurance subsidiaries are rated in terms of financial strength by Standard & Poor's Financial Services LLC ("S&P"), Moody's Investors Service, Inc. ("Moody's"), A.M. Best Company, Inc. ("A.M. Best") and Fitch Ratings ("Fitch") as follows:

| Company | S&P | Moody's | A.M. Best | Fitch |
|--|-----------|-----------|-----------|-----------|
| Genworth Life Insurance Company | А | A2 | А | A- |
| Genworth Life Insurance Company | A-1 | P-1 | Not rated | Not rated |
| (short-term rating) | | | | |
| Genworth Life and Annuity Insurance Company | А | A2 | А | A- |
| Genworth Life and Annuity Insurance Company | A -1 | P-1 | Not rated | Not rated |
| (short-term rating) | | | | |
| Genworth Life Insurance Company of New York | А | A2 | А | A- |
| Continental Life Insurance Company of Brentwood, Tennessee | Not rated | Not rated | A- | A- |
| American Continental Insurance Company | Not rated | Not rated | A- | Not rated |

The company's principal mortgage insurance subsidiaries are rated in terms of financial strength by S&P and Moody's as follows:

| Company | S&P | Moody's |
|---|------|-----------|
| Genworth Mortgage Insurance Corporation | BB+ | Baa2 |
| Genworth Residential Mortgage Insurance Corporation of NC | BB+ | Baa2 |
| Genworth Financial Mortgage Insurance Pty. Limited (Australia) | AA- | A1 |
| Genworth Financial Mortgage Insurance Limited (Europe) | BBB | Baa3 |
| Genworth Financial Mortgage Insurance Company Canada ⁽¹⁾ | AA- | Not rated |
| Genworth Seguros de Credito a la Vivienda S.A. de C.V. | mxAA | Aa3.mx |

The company's principal lifestyle protection insurance subsidiaries are rated in terms of financial strength by S&P as follows:

| Company | S&P |
|-------------------------------------|-----|
| Financial Assurance Company Limited | A- |
| Financial Insurance Company Limited | A- |

⁽¹⁾ Genworth Financial Mortgage Insurance Company Canada is also rated "AA" by Dominion Bond Rating Service ("DBRS").

The S&P, Moody's, A.M. Best, Fitch and DBRS ratings included are not designed to be, and do not serve as, measures of protection or valuation offered to investors. These financial strength ratings should not be relied on with respect to making an investment in the company's securities.

Financial Strength Ratings (continued)

S&P states that an insurer rated "AA" (Very Strong) has very strong financial security characteristics that outweigh any vulnerabilities, and is highly likely to have the ability to meet financial commitments. Insurers rated "A" (Strong), "BBB" (Good) or "BB" (Marginal) have strong, good, or marginal financial security characteristics, respectively. The "AA," "A", "BBB" and "BB" ranges are the second-, third-, fourth- and fifth-highest of nine financial strength rating ranges assigned by S&P, which range from "AAA" to "R." A plus (+) or minus (-) shows relative standing in a rating category. These suffixes are not added to ratings in the "AAA" category or to ratings below the "CCC" category. Accordingly, the "AA-," "A," "A-," "BBB" and "BB+" ratings are the fourth-, sixth-, seventh-, ninth- and eleventh-highest of S&P's 21 ratings categories. The short-term "A-1" rating is the highest rating and shows the capacity to meet financial commitments is strong. An obligor rated "mxAA" has a very strong capacity to meet its financial commitments relative to that of other Mexican obligors. The "mxAA" rating is the second-highest enterprise credit rating assigned on S&P's CaVal national scale.

Moody's states that insurance companies rated "A" (Good) offer good financial security and that insurance companies rated "Baa" (Adequate) offer adequate financial security. The "A" (Good) and "Baa" (Adequate) ranges are the third- and fourth-highest, respectively, of nine financial strength rating ranges assigned by Moody's, which range from "Aaa" to "C." Numeric modifiers are used to refer to the ranking within the group, with 1 being the highest and 3 being the lowest. These modifiers are not added to ratings in the "Aaa" category or to ratings below the "Caa" category. Accordingly, the "A1," "A2," "Baa2" and "Baa3" ratings are the fifth-, sixth-, ninth-and tenth-highest, respectively, of Moody's 21 ratings categories. The short-term rating "P-1" is the highest rating and shows superior ability for repayment of short-term debt obligations. Issuers or issues rated "Aa.mx" demonstrate very strong creditworthiness relative to other issuers in Mexico.

A.M. Best states that the "A" (Excellent) and "A-" (Excellent) ratings are assigned to those companies that have, in its opinion, an excellent ability to meet their ongoing insurance obligations. The "A" (Excellent) and "A-" (Excellent) ratings are the third- and fourth-highest, respectively, of 15 ratings assigned by A.M. Best, which range from "A++" to "F."

Fitch states that "A" (Strong) rated insurance companies are viewed as possessing strong capacity to meet policyholder and contract obligations. The "A" rating category is the third-highest of nine financial strength rating categories, which range from "AAA" to "C." The symbol (+) or (-) may be appended to a rating to indicate the relative position of a credit within a rating category. These suffixes are not added to ratings in the "AAA" category or to ratings below the "B" category. Accordingly, the "A-" rating is the seventh-highest of Fitch's 19 ratings categories.

DBRS states that long-term obligations rated "AA" are of superior credit quality. The capacity for the payment of financial obligations is considered high and unlikely to be significantly variable to future events. Credit quality differs from "AAA" only to a small degree.

S&P, Moody's, A.M. Best, Fitch and DBRS review their ratings periodically and the company cannot assure you that it will maintain the current ratings in the future. Other agencies may also rate the company or its insurance subsidiaries on a solicited or an unsolicited basis.
